SIU Homecoming Parade Marching Band Application "Saluki Walk of Fame"

April 18, 2022

Dear Band Director:

On behalf of the Student Programming Council's Homecoming Committee, I would like to invite you and your organization to participate in the SIU Homecoming Parade on Saturday, October 15, 2021. The parade will begin at 10:00 a.m. in downtown Carbondale and this year's theme is "Saluki Walk of Fame" an ode to the glamour of old Hollywood and past and present Saluki Superstars. The choice of music you perform is up to you, but we highly encourage you to incorporate music that coincides with the theme.

Awards will be made in 3 classes according to type and size of your total school population:

- Class A will be those bands from high schools with 350 or more students.
- Class B will be those bands from high schools with 349 or less students.
- Class C will be those who are made up entirely of Junior High School members.

 If a band includes both high school and junior high school students, it will compete in the appropriate High School classification.

Once again, we will have professional band directors as judges who will provide valuable feedback of your performance to you and your students.

Myself (a former Marching Saluki) and the SPC Homecoming Committee are hoping to make this year's SIU Homecoming Parade the best yet and we look forward to your participation! Please complete the registration form and return to us by **Friday**, **September 9**, **2022**. Additional information regarding parade day, including inclement weather updates, will be on our website www.homecoming.siu.edu.

If you have questions, please call us at 618-453-5714 or e-mail me at seandvcooney@siu.edu or homecoming@siu.edu. We look forward to hearing from you soon!

Sincerely,

Sean Cooney

SPC Homecoming Advisor

The Student Programming Council

homecoming@siu.edu / seandvcooney@siu.edu

Additional Information for Marching Bands

The Parade Route

The Parade Route will begin at the intersection of South Illinois and Mill Street. It will proceed north three blocks on South Illinois Avenue to Cherry Street. It will turn left and go west two blocks on College Street to South University Avenue. It will turn left and go south on South University Avenue past the Mill Street intersection and merge onto the two way traffic part of South Illinois Avenue. The parade will turn right and go west on Lincoln Drive onto the SIU campus and end at the SIU Student Center.

Marching Band Buses

Drop-off

Please enter the Lineup Area by traveling Grand Avenue to South State Street (in between Wall and Grand Apartments and the Student Health Service). Turn onto South State Street and go north one block to East Stoker Street. Turn left and go west on East Stoker Street. You will be directed from there. This is the Parking Lot behind the Student Recreation Center.

Pick-up

Marching band busses should proceed to Parking Lot 10 just east of the Student Center for pickup after the parade. Busses should exit back onto Grand Avenue and go west to South Illinois Avenue. They should turn left and go south one stoplight to Lincoln Drive. They should turn right and go west on Lincoln Drive. This parking lot is the first driveway on Lincoln Drive west of South Illinois Avenue. Buses should proceed to this lot after dropping off students.

The Lineup Area

The attached map shows the specific line-up areas for each of the Marching Bands. <u>Please enter the Marching Band lineup area from the correct direction</u>. There is very limited parking in this area so please plan to park vehicles that are not in the parade elsewhere. Marching Bands will unload in the parking lot behind the Student Recreation Center. The actual Marching Band Lineup Area is on East Mill Street, which is a 3 block walk from the drop-off area.

Chase Vehicles

Chase Vehicles, which will follow the band in the parade, should follow buses into the drop-off area. Once they are unloaded, they will be directed north on Marion Street from the parking Lot two blocks to East Mill Street. They should turn left and go west on East Mill Street. They will be directed from there to the appropriate staging spot.

Band Judging

Trophies will be awarded in the three categories for First and Second place. Examples of the judging sheets are attached to this packet. Judging will take place midway through the parade on South Illinois Avenue at the intersection of Grand Avenue. The Judging Stand will be on the west side of the street in front of Quigley Hall. This is the same location as in the past.

Parade winners will be announced at the trophy presentation ceremony following the parade in the SIU Student Center Roman Room starting at 12:30 pm on Saturday, October 16. Winners not present at the ceremony may claim their trophies from the Office of Student Engagement on the Third floor of the SIU Student Center beginning at 1:30 pm. Monday, October 18.

Parade Evaluation: Visual Score Sheet

A few lines may be dressed and covered, as defined above, but most are not. There are many flaws in alignment from front to back and from side to side. Performers seem unaware of alignment problems or unsure of how to correct those problems, since those flaws persist throughout the	Some lines are dressed and covered, as defined above. Some diagonal lines may be present at times but not on a consistent basis. Flaws in alignment from front to back or from left to right are frequent. Performers seem aware of problems in alignment but take more than five seconds to correct these flaws.	Most lines are dressed and covered, as defined above. Some diagonal lines are present. Flaws in alignment from front to back or from left to right are evident. When problems in alignment ment cour, they are corrected within only a few seconds.	Alignment It 8. Lines are nearly perfectly covered down, i.e., straight from front to back. Lines are closed as well, i.e., straight from left to right. As a result of this horizontal and vertical alignment, diagonal lines can be seen across the ranks.
2	requent variations in the way portorings move their rest can be seen between landwiduels. Moments of symmetric marching style are present but are not systalined. Likewise, periomets in visual units do not exhibit e consistent marching style when compared to other members of their unit. Step bere la tacks uniformity, some periomets la the step size.	I G	Merching Style Virtually all performers move their food in a consistent and uniform manner. Colorguard, flag, before other visual units may utilize different marching techniques as long as they are consistent within their unit. Step size is uniform within their unit. Step size is uniformation.
Speaking between 2.2 where the performers apply consistency. The interval between performers changes frequently without resolving into uniform speaking. The problems persist and are not resolved, or resolved only with great difficulty.	Frequent variations in spacing vocaving either along ranks (left to fight) or along rinks (left to back). In the spacing (or interval) between it performers may display some or all units may display some or all units may display some or all such spacing problems.	Most tranks and files display whost tranks and files display we symmetric spacing. Which is the files display consistent spacing within their unit most of the time. When flaws in spacing occur in they are quickly resolved by the performens.	Spacing. T 8 Symmetric spacing is clearly evident exicss; all ranks (left to fight), and files (monto back). Signal units may utilize different in spacing as long as they are consistent within their unit.
Many instruments are not held in an appropriate or uniform manner, including percussion instruments. Individual variations in how visual implements are spun, held or tossed are frequent and distracting.	yariations in how instruments are held when playing or marching are frequent. Variations in how visual implements are stopen, held, or tossed are also evident. Percussion instruments are not worn, held, or carried in a uniform manner.	Most instruments are held in an appropriate and uniform manner within sech socion, when playing or while maticiting, including all percussion instruments. Most visual implements (fless, baton, etc.) are spun, held, or fossed in a uniform manner.	Body and Equipment Witually all instruments are held in an appropriate and uniform manner within section, when playing or while marching, including all percussion instruments. Virtually all visual implements are spun, held or tossed in a uniform manner.

Parade Evaluation: Music Score Sheet

Rhythmic accuracy is a 1 2 2 3 4 4 7 2 2 3 4 9 7 2 9 7 9 7 9 9 9 9 9 9 9 9 9 9 9 9 9	mpo but not of the in the sicians. and shefore	All rhythms are performed with great accuracy throughout the ensemble. Consistent tempo and accurate subdivisions of the beat are demonstrated by all musicians virtually all of the time. 7 8 Most rhythms are performed accurately throughout the ensemble. Consistent tempo is evident most of the time. Subdivisions of the beat are accurately played by most of the musicians. Phasing between percussion and band occurs rarely if at all. When problems occur they are quickly corrected.	Rhythmic Precision
are present. 3 4 Chord quality is often 1 2 hard to determine due to serious flaws in intonation. The tone quality of both the ensemble and many individuals within it need careful attention. Moments of characteristic ensemble tone quality and accurate matching of pitch are present but only on occasion.	Tuning of chords needs attention. Notes of both the melody and harmony are often out of tune. The tone quality of both the ensemble and many individuals within it need refinement although moments of characteristic tone quality and accurate matching of pitch	Octaves, fifths and thirds of chords are nearly perfectly in tune. Similar notes of both melody and harmony match pitch accurately. All players demonstrate nearly ideal tone from their instrument. 7 8 Octaves, fifths and thirds of chords are in tune most of the time. Pitch matching of melody notes is usually accurate, although lapses may occur. Variations in tone quality exist between players who produce nearly ideal sounds and those who are not yet producing a sophisticated tone.	Internation & Tona
Note accuracy is 1 2 only rarely present. The beginnings and ends of notes (articulations and releases) vary widely across the ensemble. Note lengths vary widely across the ensemble. Accents are seldom used.	Missed notes are audible and appear more frequently. Some articulations and releases match across the ensemble, but many others do not. Variations in the lengths of notes played or in the amount of accents used are frequently heard.	Note & Style Accuracy Virtually all players are performing the correct notes. Articulations and releases are nearly uniform throughout the ensemble. Note lengths and accents are virtually identical. I 7 8 Most players are performing the correct notes. However, not all articulations are exactly the same, nor do all releases match. Variations in the lengths of notes played or in the amount of accents used can be heard.	אובים פניון א
Little dynamic 2 4 Contrast is heard; most of the music is at the same ivolume. Individual players or parts stick out of the ensemble texture due to their volume level. The volume of the drum section is unrelated to the volume of the winds and brass.	More distinction between loud and soft sections of music is needed. Drums need to mirror the dynamic level of the winds and brass. All players need to agree on the volume levels and changes in levels.	Dynamic Contrast 9 10 An easily audible distinction between loud and soft sections of music exists. Crescendo and decrescendo are present where appropriate. Drums actively support dynamics. A distinction between loud and soft sections of music exists, but is not demonstrated by all players. Drums may not consistently support dynamic contrasts. Crescendo and decresc- endo may or may not be present.	;
Balance Is 1 2	Moments of ideal balance may occur at times. More frequently, melody, bass line and/or harmony are out of proportion. Drums may be frequently out of balance. Inner parts are seldom heard.	Balance 9 10	-
Total Score: 50 points possible
